I feel Sandy River Drive should be left as is. Lower the speed limit if necessary and fix the problem spots. Please leave the beautiful trees.

concern about Sandy River Drive recommend leaving it as is and resurfacing the road as needed no tree removal no increasing the width

We recieved the post card concerning SRD, thank you! it would be our opinion that the township/county resurface SRD as soon as affordable. As we all know it is very heavily travelled, especially in the fall months! Is there way the city of Bismarck could cost participate? We live in county, & pay county/city taxes. During the fall, I would enjoy seeing a "car count" that the people of Bismarck travel on SRD! I am planning on coming next Tuesday. Thanks again guys!
